

How do I change my password?

Your network password gives you access to College computers, your Email and Moodle.

1. Log in to the College's Outlook Web App (by clicking on MYNLK then My Mail), click **Options** and choose "Change Your Password" from drop down list.

2. You will then be asked to enter your old password and then your new password twice.

Remember to click **Save** for your new password to take effect.

If you can't get logged in because you forgot your password or it has expired then you need to contact the **IT Service Desk 780.751.3290**. You will be required to prove your identity before the account password will be reset.
